THE FIRST HIGH-DENSITY LITHIUM-ION UPS.

ACTIVENERGY
AC6000

Get the lead out and trade up to Lithium-ion

We offer a solution-based program to get our customers out of their outdated lead-acid based batteries and into a new, ECO-friendly lithium UPS. Introducing the no-risk, AC6000 Buy-back program. Lease a new AC6000, and receive cash back on your trade* — we handle the disposal of your old unit in accordance to EPA regulations. It's all part of our sustainability initiative and another way we're doing our part. To learn more, visit methode-activeenergy.com or call 888.446.9175

Lease options:

Your choice of a 3- or 5-year lease. Units are fully warrantied and supported during the term, with complete ownership at lease end.

*100% Financing Available
