## FAT-N Powerware

## Powerware® FERRUPS® FE Series 60 Hz

Unrivaled reliability in configurable power protection for computers and telecommunications equipment

## **Features**

- Active Voltage Regulation converts power from almost any AC source into computer grade power
- Eliminates harmful harmonic currents from entering a building's wiring, where they can disrupt computer operations
- Enhanced diagnostics initiates automatic startup and scheduled tests on the logic board, battery and other critical systems
- Provides regulated output voltage without drawing power from batteries keeping the batteries full charged from unexpected blackouts
- Complete offering of LanSafe<sup>™</sup> power management software included to ensure data integrity
- Triple Power Warranty (U.S. and Canada)
  - 10-Year Pro-Rated Warranty
  - 60-Day Money Back Guarantee
  - \$25,000 Load Protection Guarantee

## **Product Snapshot**

Rating: 500 VA - 18 kVA

**Input Voltage**: 120/208/240,

208/240

Output Voltage: 120/208/240

Frequency: 60 Hz Configuration: Cabinet

Powerware FERRUPS® uninterruptible power systems furnish unmatched reliability in configurable power protection for computers and telecommunications equipment. Patented ferroresonant technology delivers "bulletproof" power protection, overcoming spikes, sags, surges, noise, and lightning. Eaton-exclusive SineSense provides clean, reliable power while conserving batteries during blackouts.

Extensive configurability options make FERRUPS the ideal power protection solution with a wide range of voltages, frequencies, runtimes, power cords, and receptacles. FERRUPS prevents the backfeed of harmonic currents into building wiring which can disrupt computer operations.

Redundant power paths assure high fault-tolerance and optimum uptime. Galvanic isolation separates input from output, filtering line noise and surges. FERRUPS also features precision voltage regulation with no battery discharge down to 38% below nominal (depending upon load); and over 80 user-programmable diagnostic and communications functions.

FERRUPS models include free Powerware Software Suite power management software with connectivity cable, and are BestLink SNMP/WEB-ready for remote management. FERRUPS is covered by the industry's longest warranty and covers up to US\$25,000 for damage to connected equipment resulting from a spike or surge (U.S. and Canada only).
